EPOTEC

THE Proven Hi Build
Pool Coating

Camden Memorial Swimming Pool

Camden, a historic town on the south western extremities of Sydney now has a great aquatic complex. The Wollondilly Shire Council, has had its Camden aquatic complex extended and redeveloped into a first rate attraction. Part of this included refurbishment of the 50 M outdoor pool. Epotec was applied skilfully by Caps Beta P/L, a Hitchins Technologies Approved Applicator based in Sydney. Epotec hi build epoxy coating was applied to the main pool, gutters and balance tanks. The unusual wet summer weather played its part in making for a challenging undertaking by all trades however the complex is now being enjoyed by one and all. Epotec was spray applied in this case, though most times is roller applied. For larger projects when weather may be an issue, airless spray application speeds up the process.

Bondi

EPOTEC Rejuvenated Country Motor Inn

We were invited to arrange a quote to restore and paint the Country Motor Inn concrete pool at Singleton and met on site with owner William, his son Benny and Donna from reception to discuss their project.

We were very pleased to be asked to proceed with the work in their colour choice of Epotec Tasman.

The applicator, Steven went to Singleton to live on site until the job was finished.

William and Benny were wonderful to work with and were so good to Steven that he said that it was like being on holiday. (We believe he was sorry to leave.) William, Benny and staff treat all their guests like this so it must be a wonderful place for travellers and holiday makers to stay. Benny kindly took photos of the project and mailed them to us for us to include in our newsletter.

From a very tired looking pool, it is now inviting all visitors to use it as shown in these pictures.

Tasman

Pool reborn in Eagle Vale

Kirsty and Shane have a great DIY outcome in Tasman for their Eagle Vale pool in NSW. Kirsty was the project manager and husband Shane provided the muscle.

As a project manager Kirsty was brilliant. From her first contact with us in August she had done her research and kept in touch with us always asking good questions and replying promptly to any email we sent her. When we talked by phone her bright personality was a pleasure to be associated with. There was never any doubt that the outcome would be highly successful as shown by the photos.

While we were never able to talk with Shane, he let his restoration skill do the talking for him. Both are delighted with the outcome. What a great team. Our congratulations to Kirsty and Shane.

Tasman

EPOTEC, THE Proven Hi Build Epoxy Pool (and Spa) Coating is available for your pool. Be it Fibreglass, Marblesheen, Pebblecrete or Concrete. **EPOTEC** will give it a new lease of life. A life that's long lasting, economic and attractive. We work with you, DIY, with your painter or an Approved Applicator for a great finish, every time. Warranty available.
